

CREWS RACE TODAY HIGH SCHOOL SERIES TOO LONG, SEEMS TO BE GENERAL OPINION

**Belief Is That Schedule Next Year Will Be
Cut to Original Length—Masons
to Play Game Today.**

According to the sentiment expressed by several of those connected with high school athletics, it is more than probable that the base ball series next

length, each team playing all the others one game. The schedule this spring has been very long drawn out and undoubtedly has caused a lessening of interest in the contests.

"We'll probably get another fine one this summer," said the coach. One of the men in charge of a team in the high schools remarked rather sarcastically yesterday, "and, for my part, I hope they never play another series as long as this. All of us thought that a longer series might add somewhat to the attractiveness of the sport."

It is now contended that it was a mistake. The games were more successful than the season.

The test cannot be played then, for the same reason that the test cannot be played this afternoon. A meeting of the faculty representatives of the two institutions is to be held tomorrow afternoon, for the purpose of a definite time, for playing the contests agreed upon. Is there to be a game with the West? As soon as possible, because of the possibility that another may have been scheduled for determining the championship.

Instead of being held in the Potomac river, the second annual swimming meet of the Washington canoe club will take place this afternoon at the Washington Athletic Club. The heavy rains of the last few days have caused the river to rise considerably and will make it very rough to swim in.

The following will be the forms of competition: Fifty-yard novices; 680-yard open; 100-yard novice; 100-yard open; 200-yard novice; 200-yard open; 400-yard novice; 400-yard open; 800-yard novice; 800-yard open;
